

RISE – Research Institutes of Sweden

Claus Popp Larsen
Head of Connected Cities
RISE

Our mission

RISE is Sweden's independent state-owned research institute.

Our mission, as defined by our owners, outlines our actions and the role we are to play in society.

We also have a special focus on supporting small and medium-sized enterprises in their innovation processes.

"The overall goal for the institutes within RISE is to be internationally competitive and promote sustainable growth in Sweden by strengthening the competitiveness and renewal of the business sector, as well as promoting the renewal of the public sector and its ability to contribute to solutions to societal challenges in collaboration with the business sector."

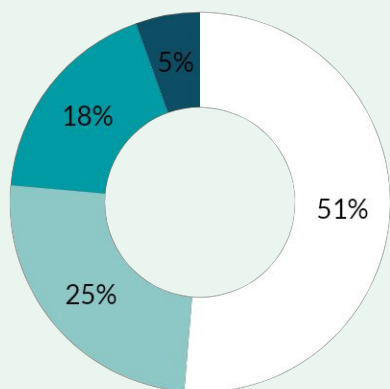

Extract from the Research and Innovation Bill
2024/25:60

4,329

SEK million, net sales

Adjusted operating profit: 145 SEK million

Adjusted operating margin: 3,3 %

Revenue distribution

	Business sector	2,222 MSEK
	Public funds	1,087 MSEK
	State funds	783 MSEK
	EU funds	237 MSEK

Approximately

3,300

employees

4th

Largest institute in Europe after Fraunhofer, CEA, and TNO

130+

Test and demonstration facilities

Our operations
are located all over
Sweden

We also have
operations in
Norway and France

77
